## SeaQuest

**BEFORE**

**AFTER**

## ADVANTAGES of using SeaQuest

**Comprehensive  
service of water  
supply system  
cleaning**  
– preventing  
secondary  
contamination  
of the distributed  
water

- halting corrosion processes,
- improving technical and sanitary condition of the water supply system,
- better working conditions at the water supply network,
- reducing operating cost of the water supply system,
- extending the useful life of the water supply system and sanitary appliances,
- eliminating water meter measuring errors,
- using smaller disinfectant doses,
- reducing water loss,
- conforming to all drinking water health standards,
- preventing calcium carbonate precipitation on heating devices at consumers' homes,
- maintaining water parameters achieved in the process of water treatment both in the water supply network and at consumers' homes,
- increasing customer satisfaction – reducing customer complaints.
